

When Hewlett Packard Wanted To Distance Themselves From The Competition

ST's Systems-on-Silicon Gave Them A Head Start.

When Hewlett Packard wanted the fastest desktop color printers available, they turned to the front runner, STMicroelectronics.

In cooperation with ST, Hewlett Packard was able to incorporate technologies that were cutting edge in every way, resulting in record-breaking speed.

So, remember: if you're trying to outrace your competition to the finish line, ST has the perfect part for you.
